

The Logan Country Chamber of Commerce is the representative business body for the Logan country business region. We service one of the biggest and fastest growing regions within the Logan City Council boundaries. A chamber of commerce provides advocacy, lobbying, and representation to local, state, and federal government levels on behalf our business members. Our committee members represent the business community on a wide range of government and industry taskforces and submit responses to many government enquiries.

Our Chamber is operated by volunteer local business members for the benefit of the wider business community. The chamber operates under a Not-For-Profit business model in that any profits made from events are channeled back in the business community. The chamber plays a key role in marketing the region to aid further investment, trade, and tourism.

Sixty percent of local businesses are small to medium enterprises, with many operating as sole traders. The Logan Country Chamber of Commerce is here to support and represent all businesses in our region.

Your membership includes your opportunity to volunteer as a committee member where you can represent your business community and help steer the direction of our Chamber.

For your membership you will also receive:

- A company logo on our website
- A welcome social media post with links back to your page
- Reciprocal membership pricing at other Logan chamber events
- Social media recognition and opportunity to share material / posts
- Opportunity to provide content for our members newsletters

The Logan Country Chamber of Commerce would welcome your commitment and further involvement in the local business community. We provide our individual membership as an annual investment of \$120. Please complete the attached membership form and send to admin@logancountrychamber.com.au

In Partnership,

Kerry Menck
President
Logan Country Chamber of Commerce
